We are constantly adding content, this document changes frequently—check our website to download this document for the latest country availability and pricing

The only global trade content company focused on trade application content. We do not sell software, brokerage services or move freight. We focus on global trade content that makes your existing solutions work better. Utilizing our network of global trade sources, CUSTOMS Info enables our clients to increase supply chain velocity and decrease global duty spend.

Foreign Classification

CUSTOMS Info / Global Data Mining is the leader in international e-commerce mapping and content delivery. We currently support 48 international websites with our international classification, duties, taxes and services.

Designed specially for companies that don't have the time or staff to complete, revise and maintain their international classification matrix of hundreds, thousands or even tens of thousands of items.

Save time, money, and increase compliance while the CI Customer Support team processes your requests according to your specific requirements and time-line.

CI delivers duty and tax rates for any specific transaction and provides the most preferential tariff treatment output consistent with your *requirements*.

A low-cost onshore outsourcing solution.
