

# Streamlining Import Processes

Descartes CustomsInfo users around the world were surveyed on how our solutions have helped upgrade their import classification processes. Here's what they had to say:

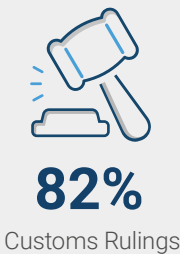

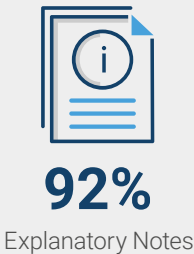

## Prior to Subscribing to Descartes CustomsInfo

Most respondents were using time-consuming and labor intensive manual methods to classify.

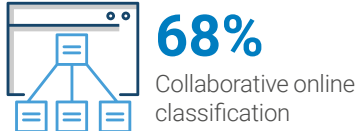

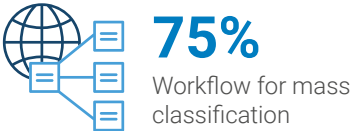

## Establishing a Standard of Reasonable Care

Users identified centralized access to multiple data sets as the most helpful feature in establishing a "standard of reasonable care."

## The Advantages of Leveraging Technology

Users identified the benefits of more advanced technology, and collaborative options, to address a more demanding workload.

**Customers reported Descartes CustomsInfo helped them to accurately classify 30% to more than 100% faster.**
